Flashlight LED • 200lm • ATEX AT4

The hyper-focus technology and the aluminum reflector ensure a high light output. As the power Cree LEDs are mounted on heat sinks, both maximum power and high yield of thermal control is achieved. This results in low power consumption and a long lifespan.

This ATEX flashlight offers a bright LED light so you can easily do even the darkest job. Simply attach the flashlight to your clothing with the sturdy clip on the back of the torch.

Specifications

Brand	Suprabeam
Type	ATEX AT4
ATEX zone	Zone 0
Battery	4x AA
Colour	Black / yellow
Light source	LED
Luminous flux	Max. 200lm
Lighting time	Max. 8h
Lighting range	120m
Temperature class	T4
Ingress protection	IP54
Weight	250g
Dimensions	183 x 69 x 63mm
Certificates	cSAus, Ex, IECEx
EAN	5704049905580
